Perth Chapter Meetings

These meeting are designed to connect the Perth Microsoft Dynamics GP community in an informal setting. It's a chance to network with fellow users and discuss the issues, tips and tricks of GP.

Keep on top of GP technologies

Chapter meetings are great places to learn first-hand about the improvements in GP and the path that Microsoft is following to offer you more value.

Our presenters focus on the topics you're interested in most: security, workflow, reporting, year-end closing, dashboards, and the features found in the latest version of GP.

Get involved

Our chapter is always looking for people to get involved as part of the chapter leadership team or as a guest presenter.

Learn, Engage, Share

Chapter meetings are all about expanding your knowledge by networking with lots of other people who do the same job you do. Maybe you know something they don't! Come and share it!

Everyone has problems they need answered. Find out how rewarding it is to discover solutions with colleagues at GPUG Chapter meetings.

About GPUG Chapters

GPUG is recognized by Microsoft as the official user group for its Dynamics GP business software. It is comprised of Dynamics GP Users and subject matter experts (SMEs) whose mission is to help GP Users maximize their investment in Dynamics GP software. Chapters enhance your membership in GPUG by offering face-to-face interaction and knowledge-sharing with other Microsoft Dynamics GP users in your region.
